Company PR (principles, etc., 200 letters only or less)

Daiichiya Sakaten was founded in 1939 as a B to C retailer. Since then we have expanded our business to B to B businesses such as wholesaling to liquor shops and restaurants, and supplying ingredients to food / beverage plants. Since 2014 we have exported our products to Singapore and New Zealand. We are exporting our products to New Zealand in bulk container (1000L) for OEM use. Since we are a retailer/wholesaler, not a manufacturer, we can ship promotional materials and seasonings together with alcoholic beverages.
